Kjersten with TherExcel Physical Therapy

Kjersten is a TPI certified medical practitioner. She has been a sports and orthopedic physical therapist for nearly 20 years. Kjersten has been working with golfers since 2001 and will be a published author in the Junior Golf Magazine in October. Kjersten has moved into the clubhouse and is ready to help your golf game. TherExcel has found many ways that physical therapy can benefit the golf swing (young or old).

Services TherExcel Provides:

Titleist Performance Institute Golf Functional Movement Screening

TPI paired with video analysis swing characteristics that cause faulty body movements and potential injury

Manual therapy to improve muscle balance, facilitated proper joint alignment and improve overall function

Personal strength/flexibility program to address and correct faulty swing characteristics

Individualized injury prevention strategies and sports performance enhancement specialty programs

GolfFit Classes: Golf specific strength and flexibility exercises including pilates, yoga and power training

K-Vest 3D Motion Capture - Measure and train your body to increase golf speed, distance, & power

WILDWOOD GREEN GOLF CLUB

September & October 2016

Individual Screening with TherExcel

Saturday, September 17th

45 Minute Session

Cost: \$75 per person (\$185 value)

The screening will include the K-Vest assessment and training as well as the Titleist Performance Institute physical screening. This will help measure and train your body to increase golf speed, distance, accuracy and power. TPI paired with video analysis swing characteristics can help find faulty body movements and potential injury.

Sign up in the golf shop today for your screening! There are only so many available slots. Do not miss out on this great opportunity!

WILDWOOD GREEN GOLF CLUB

September & October 2016

Best Event
Yet!

2016 Battle of Ballyunion Member-Guest

Friday, October 14th – Sunday, October 16th

Format: Best gross and best net, may be the same ball (separate divisions). Each golfer will play 18 holes on Saturday and 18 holes on Sunday. The team will select the best gross score and the best net score on each hole and record those as the team's score. The lowest gross scoring team in a flight AND the lowest net scoring team in the flight will compete in the sudden death playoff for the title of overall champion. All other ties will be split.

Look out for the information packet that will be put on the golf shop counter soon!

Registration & Eligibility: The field is limited to the first 40, two-person teams who have completed the registration sheet, submitted it to the golf shop and paid their team entry fee. Registrations must be submitted by end of business day on Friday, October 7th, 2016. Registrations will only be accepted if the member of the team is in good standing with the club and participants must be amateurs as outlined by the USGA.

Golf's Lofty Ambition: Rules That Make Sense

The sport's governing bodies are working together to overhaul the rule book to make it more accessible—without fundamentally changing the game.

By: Brian Costa, The Wall Street Journal

Aug. 26, 2016 8:47 a.m. ET

On the second day of last month's PGA Championship, Jordan Spieth found himself in a situation only a jurist could enjoy. After his tee shot landed in a puddle on a cart path, he spent nearly 10 minutes consulting with a rules official about his options for relief under Decision 24-2b/1, which exists to further explain the 474-word text known as Rule 24-2b. It was the kind of moment that makes many viewers wonder: Does golf really need to be this complicated? As it happens, the sport's governing bodies are asking themselves the same thing.

The USGA and its British counterpart, the R&A, which jointly administer the rules of golf, are considering what officials describe as one of the biggest overhauls in the history of a rule book whose origins can be traced to the 1700s. The idea is to make the rules easier to understand, with an eye toward casual golfers who routinely ignore many of them. "This is just a chance to reset," said USGA chief executive Mike Davis. The idea is if we get this right, many more golfers will embrace and understand the rules."

The USGA is hoping to release a draft of the new rules for feedback from recreational players in 2017, though it could be another few years before they take effect. John Bodenhamer, the USGA's head of rules, competitions and equipment standards, likened it to the 1971 publication of the Living Bible, a more accessible version of the King James Bible. "I think it's fair to say that some golfers, perhaps many, are intimidated in picking up the rule book," Bodenhamer said. "We want to be able to help golfers with that." For the USGA, it isn't just a matter of creating more rules buffs. It's a matter of creating more golfers. The number of Americans who play at least once a year has declined steadily from a peak of 30 million in 2005 to just over 24 million last year, according to the National Golf Foundation. Surveys of people who quit the game have shown a direct correlation between participation and their overall comfort level on the golf course. To that end, a Byzantine rulebook doesn't help. (Continued on next page)

This summer, in particular, has been like a billboard for everything people find absurd about the rules of golf. Before the sight of Spieth pondering the intricacies of his relief options, there was the U.S. Women's Open. Anna Nordqvist of Sweden lost in a playoff after incurring a two-stroke penalty because her club grazed a few grains of sand in a bunker. Before that, there was the U.S. Open, which will be remembered less for Dustin Johnson's victory than for the rules controversy he overcame. The USGA came under withering criticism both for its decision to penalize Johnson for, officials ruled, causing his ball to move slightly on a green and for its slowness in deciding.

To some degree, the nature of golf requires a more complex set of rules than in other sports. There are 34,000 courses in the world, each one of them different, which creates endless hypothetical scenarios. But in their quest to cover all of them, rule makers have left players with a document that makes the federal tax code read like "Goodnight Moon."

Technically, there are two documents: the book of rules and the book of decisions, which clarifies questions raised by the rules. The decisions cover the legality of such acts as removing a stone from a wall (not OK), using a cane to step down into a bunker (mostly OK) and swatting away an airborne insect (totally OK!). There is also a 488-word explanation of the meaning of the word "improve" and an answer to this question: "What is the status of saliva?" (Look it up.) Even still, Bodenhamer said the USGA receives about 8,000 phone calls per year from people with rules questions, 10 or 15 of which have never been asked before.

"The rules have been written in a pretty legalistic way," Bodenhamer said. "Just the words that were chosen, in an effort to be precise, can be a bit challenging for some folks." Rewriting the rules in something more like plain English is one priority. Identifying rules changes that could help accelerate the pace of play is another. The rules are published in 32 different languages, so the governing bodies are also trying to ensure that nothing is lost in translation.

Then there is the technology component. Any revamped rulebook is likely to be more digitally focused and mobile-friendly, using video demonstrations and images to convey what words can't as easily show.

The proposed changes are being drafted by a group of around a dozen people representing the USGA, the R&A and the pro tours. The goal is to create a simpler set of rules that apply to all levels of golf without fundamentally changing the way the game is played. "We realize that when golfers go out to play golf, they're not always going to play 100% by the rules of golf, and you know what? That's OK," Davis said. "What we want to do is make the game more welcoming and easier to understand for everyone that plays it."
