Tournament Information, Flighting Information, & Regulations

The **Golf Shop staff will only be entering "Tournament" scores** for event participants throughout the year. Tournament scores will be recorded for Wildwood Green major golf events such as the Spring & Fall Member-Member and the Club Championship. The major events are in **bold** on the event schedule.

All non-tournament event scores will be posted by the competitor and **should not** be recorded as tournament scores.

Gross Payouts – Gross will only be paid out if there are 3 or more payouts for field or flight

Net handicaps when playing your own ball with a partner(s) will be reduced by 10% or 5% depending on your gender. 90% of the course handicap will be used for male competitors and 95% of the course handicap will be used for female competitors.

> If the difference between the two teammates' course handicap is more than 8 strokes after the 10% or 5% allowance, we will subtract an additional 10% from both players.

50% of the male competitor's course handicap will be used and 55% of the female's course handicap will be used in a **Texas Scramble format**.

10% of the combined team course handicap will be used in an **18 Hole Scramble format.**

5% of the combined team course handicap will be used in a **9 Hole Scramble format.**

During **individual competition** events each player will receive 100% of their course handicap.

During **match play events**, each competitor will receive 100% of their course handicap and then the low course handicap will play as a 0 and the higher course handicap will receive the difference in strokes. All strokes will be allocated according to the USGA.

Each competitor's **set of tees** to be played will be assigned to the competitor based on the set of tees most commonly played from in their most recent handicap revision.

> In the event other courses have been played, the staff will assign a tee based on the other course's rating closest to that of a set of tees at Wildwood Green.

Events will definitely be flighted in the Spring & Fall Member-Member events as well as the Club Championship. For other club events flights will depend on field size. When there are 15 or more teams (30+ competitors) flights will be created and broken down as evenly as possible.

Flight Basis: 75% of the low index plus 25% of the high index will be used to flight the teams.
