

Wildwood Green Golf Club Cart Path Improvement Program

As you are aware, the cart paths around Wildwood Green over the past several years have been repaired in many spots. However, we need to make more improvements. With the putting surfaces, landscaping, and clubhouse improvements taking place over the past months, **we are finally in a spot where we can focus our attention to the cart paths.**

The cart paths are one of the last things on our list to completely improve so we are happy to announce our **“Cart Path Improvement Program”** and give you an opportunity to save money! Please note that your help will come with **substantial savings to you as well as a benefit to all** and we look forward to a continued relationship with you well into the future. **Don't wait to take advantage of this program....we are limiting this offer to the first 125 memberships or June 1st, 2019 whichever comes first!**
