

Capital Improvements and Member Benefits at Wildwood Green

Since our first major improvement of installing the Champion Ultradwarf Bermuda grass greens in 2017, we have also improved the golf course tees, driving range, golf carts, cart paths, landscaping, general improvements around the clubhouse, added an awning at the back patio, enclosed the pavilion, remodeled Champions Grille, remodeled the golf shop, automated irrigation at the greens, fairways, tees and range, paved the parking lot, added additional benches and ice/water machines around the course, plus many more improvements.

In 2021, we have cleaned the pond at #5 green, cleaned the #12 lake and enlarged the forward tee, removed some more trees throughout the property, improved and enlarged the lesson tee area, cleaned some underbrush on the course and continued our beautification project to name a few.

Please see page #2 for an expanded listing of completed and planned improvements.

We want to continue and build upon these improvements throughout the next few years and make sure we have the best facility in our area while still giving you, “the best bang for your buck”! New guest rates and rules were implemented in 2021 and we have installed a new point of sale operating system. GPS touch screens for the golf carts have been installed as of early March.

We will also continue our efforts to help you improve your game by having the most years of teaching experience offered anywhere in the area. We also offer the best club selections while at the best prices in town for our members.

We have all of this here for you at Wildwood Green at value pricing and with outstanding service!

-Jeff Engelhaupt, PGA
General Manager
